October 2, 2014

Dear Mr. Fumerton

As a follow up to the Ministry's letter to LCCW on June 16 th, 2014 regarding the Earthworx Site:

1) We would like to know if there has been any further groundwater monitoring, as per the MOE's and DLS's recommendations, since July 2013. If so, we would appreciate receiving those results as well as a copy of the "annual groundwater monitoring report" as detailed in the Ministry's April 1st, 2014 Memorandum from Cristina Trotter.

2) We would also like to know if there are any meetings coming up between the MOE and the Township, and perhaps Earthworx and GFL. The October 2011 MOE Tribunal decision indicated that we were to have a "significant role" with regards to this site. We would ask that you respect the Tribunal's direction and that we be included in any meetings regarding this site going forward and be notified and briefed on any meetings that we missed in the recent past.

Our intention is to share the relevant information with the concerned citizens of our membership.

We thank you for your time and attention.

Ian McLaurin
